For some time past it has been known that there has been but little harmony in Company A, several of the members of the company desiring its disbandment. The others of the company desired the captain's resignation and considerable bad feeling was stirred up. There has been light attendance at the drills. In the expectation of fhe disbandment of the company a list of fiftytwo names was prepared for the purpose of forming a new company, composed principally of clerks and young business men and including several of the members of the present company. Inspector-General Lathrop was here Wednesday to inspect the company. Only about thirty turned out to the inspection, while the company will have to turn out fifty men for the state encampment. The inspector-general nterviewed a number of the business men to get their views on the disbanding of the present company and will report the result to the PUMPS, governor. Michigan at the World's Fair.

A great deal has been written upon this subject. Mr. Paul G. Suekey, the editor of the Hausfreund, has seen the World's Fairs at Paris and Vienna and devotes a column in the Hausfreund, this week, to Michigan at the Chicago World's Fair, from which the following extracts are translated:

"This day, the legislature in joint session, in the presence of invited representative men from all sections of the state, is to decide the question whether Michigan is to be represented at the World's Fair as a state, whether the wealth, splendor and industry of the state is to be represented in a state building, and the sum of money to be appropriated for such representation. Wil our legislature, which has so frequently vaunted her economy but in reality not been in earnest about it, will our law-makers finally commence at the wrong place with their oft threatened economy, or will they vote a sum adequate to represent the dignity, greatness and wealth of the state, to show the people of the United States and of the world what Michigan is and what she is capable oughly enjoyed, judging from the of doing; that the lake surrounded liberal applause. GENTLEMEN: In obedience to customs which I would hesitate to transgress, I have the honor and the pleasure as well, of appearing before your Honorable Body for the purpose of formally inaugurating the work which lies before us as the legislative and executive heads of this municipality.

It is needless, perhaps, for me, who have recently come into official contact with the varied and often complex workings of our city government, to remind you as individuals of the labors and responsibilities of the coming year. Many of you are already familiar, by long experience, with the minutest details of our civic life. You have seen administrations come into being, buoyant with hope and confident of strength for the performance of the duties they have been called to discharge. You have witnessed disappointments, perhaps, seen hopes deferred and ideals unrealized, but you can truthfully say that whatever the errors may have been, and to err is human, there has never in our history been a lack of honest, patriotic effort, and a steady, dignified and consistent progress towards an ultimate which in everything shall make for the public good.

To you who are veterans I would simply say that we, the new recruits, come to you with no request but for the benefit of your ripe experience, no hope, but for the grace and power to do our best, no confidence except that which is inseparable from conscious integrity of purpose-and, we trust, with no false pride which shall cause us for an instant to forget that we are the servants of the people and that in us, officially, they have reposed their trust. And so I have the faith to believe that the result of our joint labors will not be unworthy of the examples of our faithful and competent predecessors, whose wise legislative and prudent yet public-spirited, executive policy have placed our beautiful Ann Arbor in the front rank of the foremost cities of the state.

In this connection, also, it is most appropriate that we render due acknowledgment of the self-sacrificing and onerous work which the several municipal boards of the city are continually called upon to perform. Too much praise cannot be given to those of our fellow-citizens ness here. who, at the call of public duty, have sacrificed their personal convenience and too often their financial gain in the exacting duties pertainin perfect justice to them, for here is their only reward, that we here of the city for services performed.

E. Cooley. Very much of the technical and professional excellence which our fire depart ment can justly boast, is due to his efforts and hearty co-operation. We can, however, console ourselves by the thought that the city at large has gained, and in that gain our fire department will surely share. The remaining members of the Board whose long end familiar experience with the duties of their office has rendered their services invaluable, will carry into the work of the coming year that expert knowledge, which is so requisite to their position. I confidently expect that there will be no deterioration in the esprit du corps which is to be remarked in the officers and men under their control.

While I would in no wise counsel or advise a lavish outlay in this department, yet I feel it my duty to say to you, that in a prudent generosity here, there may be a wise

POLICE.

I approach this subject with some hesitation, for it is, perhaps, in the popular estimation, more intimately connected with the executive functions than any of the preceding

departments. I shall not attempt any argument upon this question, neither shall I attempt at this time to outline an elaborate policy, perfect in all its detail, relative to the morale and efficiency of the force. It will suffice me to say that we shall endeavor to secure and preserve the peace and tranquility of all our citizens and Pres. Cooley-11. yet at the same time it is but just to say that the efficient policing of so large a city as ours with its miles of territory, its widely scattered business interests and places, its complex population, its daily growing metropolitan customs and accessories is not perfectly possible with a force of one man for day duty and two for night patrol.

I am satisfied after diligent inquiry and personal observation, that the force has faithfully labored to perform its duty, yet if cause for complaint has arisen I ask leniency in passing judgment and promise for the force their best endeavors for the public tranquility in the year to come. As an indispensable requisite to this consummation I also entreat our citizens who, I know, are as law abiding, peaceable and industrious as the state can boast, to aid and assist, by their example, in the maintenance of a decent respect for law and constituted authority. It is only thus that we can hope to so that many an anxious parent who commits a child or children to our care, and that of the great institution of learning which is here, will rest unshaken in his confidence, despite the voice of detraction in which it pleases some to indulge.

In conclusion, it is well for us to remember that while we are continually enhancing the beauty and attractiveness of our city, we are at the same time under increasing obligations of courtesy and hospitality. Thus, the press has informed us that during the month of June, the convention of the State Bund of the Arbeiter Verein will assemble here This great association has in its ranks the foremost citizens of the state, and all of us who are at all interested in the work of beneficial societies, know the grand good work to which they are devoting themselves. Resolved, That a committee of three GENTS' 35c CUFFS be appointed to look up the worthy poor of this city for the purpose of making special provision for the same by regular monthly payment from the poor fund.

Alderman Wines moved that Alder man Mann be chairman of such special committee, pending which Alderman Herz moved that the whole question be referred to the Poor Committee, which motion prevailed and the resolution was so referred. To the Common Council:

Your committee to whom was referred, in connection with the Board of Public Works, the question of the settlement of the claim of the Nowland heirs to a part of the old ceme tery, respectfully report that we have had a meeting with the Board and at the same time a conference with Mr. Resolved, That the following side-walks be and are hereby ordered graded and constructed within ten 16th day of September, 1889, the Board acting under instructions from this side of Twelfth street and in front of heirs of the sum of five hundred dollots and premises owned and occu- lars for their interest in the whole of the old cemetery, which offer was duly reported to this Council, deeds were duly executed and ready for delivery, but this Council failed to approve such action of the Board of Public Works, for which reason the deeds

were not delivered. Your Committee further report, that as a result of such meeting and conference with Mr. Nowland, your Committee found that Mr. Nowland would now, for the sake of a settlement of the whole contention, deliver such deeds on payment of two hundred and fifty dollars and the removal and rein-terment in the new cemetery of the bodies now buried on that part of said old cemetery claimed by said Now-lands on a lot or lots in the new cem-etery, to be provided by the said Nowland heirs, before the payment of said money.

Your Committee, therefore, would recommend that the sum of two hun dred and fifty dollars be appropriated from the contingent fund for such purpose and paid to said John Nowland on the delivery of such deeds, and that the Board of Public Works be instructed walks be and are hereby ordered to cause the bodies now buried on the north part of said old cemetery to be removed to the new cemetery, and their interment on lands therein to be

About the base-ball game, the Review says:

"The U. of M. boys have the fastest team in their history. We await with interest their contest with Cornell next Saturday. We wish the contest could have been held in Oberlin, but we are glad that the ball game was played afar off in the wilds of Michigan.

"More in sadness than in wrath we proceed to write the epitaph of our ball team. The game at Ann Arbor last Saturday was one of the most sickening exhibitions of poor team. The game was an eye-opener. Our nine was over-matched at nearly every point. We are unable to report on the base-running, as only one Oberlin man reached third, and only three captured second. Wilkinson's home run was simply a respectable foul, as the Ann Arbor players admitted. But because it brought in a small matter of only three runs, no obstinate kick was made."-U. of M. Daily.

STRIKES OCCUR IN MANY PLACES.

But the Great Industrial Upheaval Does Not Materialize-The Principal Trouble Among the Coal Miners, Who Stop Work in Spots in Ohio, Indiana, and Illinois - A Parade Followed by Speeches at Chicago-Europe Gets Through with Much Less Trouble Than Looked for-Fatal Riots at Rome

CHICAGO, May 2.-Labor day was cele-Drated in Chicago by a grand parade of afty or more labor organizations and a monster mass meeting on the lake front. The demonstration was fully the equal of former years. Last night the different unions had entertainments at their halls. Estimates of the number of men in line run from 15,000 to 25,000. Secretary F. L. Dutcher, of the executive committee, con-Alently expected to have 25,000 men in line. There were delegates to the meeting Thursday night from fifty-three organizations and their lowest estimates of the turned to work. men who would turn out footed up to a total of over 15,000 while other bodies were expected. "We would have a bigger demonstration," said Marshal Swallow, "but the bricklayers and carpenters have got their eight hours and good wages and will not turn out to any extent."

One Thousand Carpenters in Line.

The procession, which moved through the principal down-town streets to the Lake Front park, was made up of four divisions; the most noticeable and largest body of men in the line was the Carpenter's union, which numbered 1,000 men. A feature of the parade was that there were a number of non-union men in the ranks, and for the day all jealousies be-tween organized and unorganized labor were dissipated. There were a large number of bands, and many banners bearing appropriate devices and legends.

SOME DOINGS OF THE DAY.

A Variety of Strikes with a Variety of Results.

CINCINNATI, May 2.-No trouble is looked for among workingmen in this city. The building trades have no grievance, and the carpenters are satisfied with the situation as it is. If any strike comes it will be accidental, as no prepara-tions for any have been made. In Cov-ington, Ky., the carpenters went out on a strike yesterday for nine hours' work at a minimum of \$2.50 per day, instead of ten hours per day, as previously. They also want the contractors to employ none but union men.

Two Hundred Quit at Milwaukee.

MILWAUKEE, May 2.-About 200 carpenters quit work yesterday to enforce the new scale of wages which was submitted to the bossed several months ago, but there was no general strike of the building trades. Most of the larger contractors have conceded the new scale demanded by the men.

Carpenters Strike at Terre Haute, Ind. TERRE HAUTE, Ind., May 2.—About 500 carpenters in this city have struck for an increase of 5 cents per hour. Both sides are obstinate, and the strike will be a long one. Hod-carriers are also on a strike for an increase, and the brickmakers have gone out in sympathy with them,

Nothing to Indicate Labor Day. KANSAS CITY, Mo., May 2.-In this city

there was nothing to indicate that yesterday was Labor day. There was no cele-bration of any kind among the working classes. At Topeka, Kan., the day was observed by the working classes generally

MANY MINERS LAY OFF AWHILE.

Nothing Like the General Strike Predicted Some Time Ago.

COLUMBUS, O., May 2.-A special to The Columbus Dispatch, from Nelsonville, O., one of the principal points in the Hocking coal regions, says: The miners were all idle yesterday, but in an interview with a number of the leading miners we are informed that this does not mean a strike, as the 1st of May was Labor Day. The opinion of the majority of miners interviewed is that there will be no strike in the Hocking Valley and Straitsville districts.

Soon Agreed on a Price.

PITTSBURG, Pa., May 2.—The railroad coal miners of the Pittsburg district, 5,000 in number, struck yesterday. The miners will, however, resume work Monday, as an agreement was reached yesterday afternoon by their conference committee in convention here and the coal operator's committee by which last year's rate of 79 cents was affirmed. The coal operators also agreed to advance the price of min-ing in case of any advance in coal during the coming year.

Awaiting a Settlement.

SPRINGFIELD, Ills., May 2. - The miners of Sangamon county, numbering about 1,500, were idle yesterday awaiting a setment of the question of the price of mining and hours of work. Heretofore the men have been receiving 62½ cents a ton, but the operators propose to pay only 50 cents in the future.

A Shut-Down at Grape Creek.

DANVILLE, Ill., May 2-The Grape Creek Coal company, the Spellman Coal company and the Kelley mines, all lo-cated in Grape Creek, shut down yesterday. They have been paying 65 cents a ton for mining and want the men to accept a reduction. There will be over 800 idle miners on Grape Creek.

Indiana Coal Miners. INDIANAPOLIS, May 2.—Three thousand miners in the block and bituminous coal fields of this state went on strike yesterday, because the scale for the year has not been signed, and the operators insist on a reduction.

BLOODSHED IN THE COKE REGIONS.

A Striker Killed and Another Wounded-

Trouble at an Eviction. Uniontown, Pa., May 5.-The deadly pistol did some more work yesterday, and one man was killed and another badly wounded. The tragedy occurred at a house where Superintendent Gray, of ished in attempting to reach the shore in Leisenring No. 3, says the strikers held captive two men who had been working.

Gray and Pit Boss Caliaghan went to the laden for Asuland.

house to rescue the men when they were attacked with stones, and when the sheriff's deputies came to their assistance the strikers stoned them also, and then fired on them. The deputies replied, and killed John Mahon, wounding another.

Strike Leaders Tell Another Story. John McSloy, of the strikers' executive board, says the above is not true; that no-body attacked Gray and Callaghan, but that they fired into a crowd of strikers who who were jeering them on their lack of success in getting the two alleged cap-tives to go with them. McSloy had Gray and his companion arrested, charged with wilful murder, and put in jail, although the coroner's verdict was that Mahou was killed by an unknown deputy.

The Process of "Persuasion." Thirty-seven Huns from Braddock were landed at Erick's redstone works yester-day. They were met by the local strikers, some of whom waved knives and other weapons until the strangers fled from the ground. They walked back to Union-town, where some of them took the first train north and others remained in town, and were last night taken in tow by the

Deputy Sheriffs Strike. A number of evictions took place yes-terday. At one house the deputies were attacked with stones, and when one of them drew his revolver the sheriff dis-charged him. Thereupon the others deputies struck, and but half a dozen re-

SOME TURBULENCE IN EUROPE.

Bloodshed in Several Places-A Lively Riot at Rome.

ROME, May 2.-A number of workmen held a meeting yesterday in the rear of the Church of St. John of Lateran. Five members of the chamber of deputies were present. One of the speakers, an Anarchist, urged an attack on the police. Soon after a mob, some in the street and some from windows, began to stone the troops that were passing. The police fired on the rioters, and the cavalry followed up the volley by a charge that scattered those in in the screet. A force of infantry proceeded to storm the house from which stones had been thrown.

Many Wounded and Two Killed. A great uproar and struggle followed, the Socialists offering violent resistance. In the melee Deputy Barzillai, a Socialist; Cipriani and twenty-five others of the mob were wounded, Cipriani mortally, it is said, and one killed. One policeman was stabbed and killed. Several of the troopers in the street were unhorsed by some of the mob, who rallied after the first charge and trampled upon and kicked the fallen soldiers. The military were successful in subduing the riot, without serious loss to themselves.

Cavalry Charge a Mob.

LYONS, May 2.- May Day in this city was attended by exciting scenes. large crowd of men, followed by a multitude of women and children, paraded the streets bearing red banners. The police attempted to disperse the crowd, and a general melee followed. Many arrests were made, and the rioters continued to and Vicinity. defy the police until 10 o'clock at night, when the cavalry charged the mob, dis-persing it and injuring many. Sixty arrests were made.

Four Policemen Shot.

PARIS, May 2.-A mob threatened the police station at Clichy yesterday. The gendarmes sallied forth and dispersed the ricters, who took refuge in a wine shop where they barricaded themselves in. The police, in attempting to dislodge them, were met by a volley from revolvers, which wounded four of the policemen.

Looted the Florence Stores.

FLORENCE, May 2.- The police and military dispersed a crowd of men who were listening to incendiary speeches yester-day. As the mob dispersed its members looted the stores on their line of retreat.

Seven Killed and Twelve Wounded. PARIS, May 2.—In a collision yesterday between the police and miners at Four-mies, department Du Nord, seven persons

were killed and twelve wounded. MOB LAW EXCUSED.

The New Orleans Slaughter Seems to Have Been the Correct Thing.

NEW ORLEANS, La., May 6.—The long delayed report of the grand jury in the international affair of the parish prisoners March 14, was presented late yesterday to Judge Marr. It justifies the citizens, presents no indictments, and a full condensation is given below. All the jurors sign the report, which is first devoted to a recital of the facts of the killing of Hennessey, and a review of the trial of the accused, ending with the statement that the verdict was a shock and disappointment, and resulted in the conviction that the jury had been unfaithful to their duty, and that the evidence against the prisoners was clear, continuous, complete and convincing. The allegations of jury fixing are considered, and it is stated that all the jurors were examined and made statements freely, rather welcoming the opportunity. They nearly all justified their verdict by the assertion that the state had a poor case.

Murder at Waukesha, Wis.

WAUKESHA, Wis., May 5.-A saloon keeper named Schley was found murpered and robbed Sunday morning. Later Henry Bernhard was arrested as the perpetrator of the crime, and taken to Milwaukee for safekeeping, owing to threats of lynching. He admits that he aided in robbing Schley, but denies that he killed him. The money stolen was found on Bernhard's person.

LATER.-Bernhard has confessed that he alone murdered Schley. He said they quarreled and he laid in wait for his vic-

tim and killed him with a club.

The O'Shea Case Again. LONDON, May 4.-The Pall Mall Gazette announces that important information has been given by outside parties to the queen's proctor, Sir Augustus Keppel Stephenson, during the last few days in regard to the O'Shea divorce case. The Pall Mall Gazette adds that if the information furnished turns out to be correct, it is sufficient to call for the intervention of the queen's proctor.

In the evening he crossed over to Oakland, where his train was waiting and shortly after midnight started for Portland, Ore, To a request from Governor Fifer, of Illinois, that he stop at Springfield a day instead of one hour, the president has replied that it is impossible.

REDDING, Cal., May 5 .- The first portion of the presidential party's journey to Portland was made yesterday in a mild rainstorm. The president rose early and was the only member of the party to greet the crowd that gathered at Tehama. He was enthusiastically received and shook hands with all within reach. At Red Bluffs the party were cheered. Capt. Matlock, an old army comrade intro duced the president to the people. The president made a brief address.

The train passed through Dalta about noon, and at Dunsmuir the president shook hands with a large number of old soldiers and thanked the citizens for their warranted to give satisfaction. reception. The train stopped at Redding for twenty minutes, during which time the president made a few remarks. At Mt. Shasta station more speeches were made and the party drank some of the mineral water. The president was pre-sented with a large framed picture of the mountain.

The Italian Imbrogli.

WASHINGTON CITY, May 5.—Premier Rudini's latest note to Marquis Imperiali has not, in the opinion of state department people, wrought any change in the Italian question. Marquis Imperiali was extremely reticent about the matter yesterday and would only say: "You must let the communication speak for itself." State department officials, while slow to express opinion, do not attach much importance to this last note. It is regarded here as intended solely for "home consumption," and to be used there for the purpose of inspiring the Italian people with the idea that their government is pursuing a vigorous and resentful policy.

B. P. Hutchinson at Boston.

A Cloud of Witnesses.

We know of no medicine that has so many testimonials to its efficiency as S. S. S. the great blood purifier. Many of the best known people in the country certify to the marvellous results it has wrought in the various forms of disease for which it is recommended. These testimonials come not alone from persons who have been relieved of their sufferings by S. S. S., but from people who have witnessed the effects of the medicine. Practicing physicians, druggists, pharmacists-in fact, all who have had an opportunity of observing the cures brought about by this great blood remedy-bear willing testimony to its efficacy. In its field, which is a wide one, covering some of the most serious ailments of humanity, S. S. S. has no rival.

She-Isn't it horrible about Mrs. Tinsley?

He-Yes. What could have induced her to elope with her butler?

Say many poor men and women, who seem overworked, or are debiliated by change of season, climate or life. If you could read the hundreds of letters praising Hood's Sarsaparilla which come from people whom it has restored to health, you would be convinced of its merits. As this is impossible, why not try Hood's Sarsaparilla yourself and thus realize its benefit? It will tone and build up your system, give you a good appetite, overcome that tired feeling and make you feel, as one women expressed it. "like a new creature.

Confirmed.

The favorable impression produced on the first appearance of the agreeable liquid fruit remedy, Syrup of Figs. a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufac-turers, the California Fig Syrnp Company.

We live day by day under the illusion that it is the fact or event that imports, whilst really it is not that which signifies, but the use we put it to, or what we think of it.

A Valuable Discovery.

Dr. Brown Sequard's elixir of youth may be an important discovery, but every one knows that Dr. Franklin Miles' New Heart Cure certainly is. It has given thousands afflicted with a serious heart disease a NEW LEASE OF LIFE. Druggists who can observe its effects on many customers every-where speak very highly of it. Mr. John Weaver, of Knightstown, Ind., "I have sold much of Dr. Miles New Cure and have received many good reports." O. Monroe, of Dun-kirk, N. Y., reports large sales. "And the best of it is every bottle has given satisfaction." Sold and guaranteed by Eberbach & Sons.

Mortgage Sale-

On the Sist day of March, A. D. 1883, John Lyun mortgaged to Abner P. Wilcox all that critain piece, or parcel of land situate in the township of Augusta in the county of Washtenaw and State of Michigan, described as follows to wit: "The south half of the east half of the north-east quarter of section thirty-six," to secure the purchase money of said described lands. Said mortgage was recorded in the office of the Register of Deeds in and for said county on the 29th day of May, 1885, in liber 65 of mortgages on page 497. Default has been made in the conditions of said mortgage by the non-payment of the moneys due thereon by which the power of sale therein contained has become operative. There is now claimed to be due and unpaid on said mortgage the sum of eight hundred and eighty-six and 90-100 sollars and no proceedings at law or in chancery have been instituted to recover the same or any part thereof. Notice is therefore hereby given, that by virtue of the power of sale in said mortgage contained and of the statute in such ease made and provided, I shall sell the said premises above and in said mortgage described at public auction to the highest bidder on Saturday the 20th day of June, 1801, at the south front door of the Court House, in the city of Ann Arbor in said county, to make and satisfy the amount then due on said mortgage, the cost and charges of this foreclosure and sale and twenty-five dollars attorney fee as provided for in said mortgage.

NEW YORK, May 6.-A special from Washington City says that a distinguished Democratic ex-senator from the west who is a warm personal friend of James G. Blaine, took dinner with that gentleman recently, and the latter talked of the presidency. Mr. Blaine intimated to this that gentleman he felt he had given the administration much more than he had received, and he resented being set aside by "youthful scions of would-be roy-

Would Not Refuse Nomination. While he would not actively seek a nom-ination at the hands of the Republican party at the next convention, Mr. Blaine would not refuse it if offered. On the contrary he would feel that twenty years of unswerving loyalty on the part of the Republican party to him had the first claim upon him, and if nominated he would undertake the campaign and do the best he could to secure party success on a reasonable platform. Asked to define a "reasonable platform," Mr. Blaine replied: "A moderate tariff and reciprocity."

From a "Most Intimate Friend." PORTLAND, Me., May 6 .- One of Secre-

tary Blaine's most intimate friends commenting on the editorial announcement in Frank Leslie's declaring Blaine out of the race for the presidency in 1892, said:

"Mr. Blaine is not a candidate, it is true; neither does he want to be. No one has any right to make such statements as the one that appeared in Russell Harrison's paper. Those who think that another 'Florence' letter is on the tapis are mistaken. If President Harrison can be nominated and elected, then Blaine will stand loyally by his chief and do everything possible to help him, but this talk that he pledged himself to do so two years ago is all moonshine. He has never said he would not be a candidate. Stories To Be Taken with Salt.

"He has some fool friends who are doing their best to aid his opponents by circulating silly reports, but when you see a statement that Mr. Blaine told so and so what his plans were, don't you believe it. I saw an interview attributed to Congressman Boutelle and Tom Payne, in which both are made to declare that the secretary is thinking of immediately announcing his absolute and final decision not to be a candidate. I don't believe they made these statements, and if they did, I know they made them without authority."

AN ALLEGED INCENDIARY'S WORK. A Town in Minnesota Terribly Ravaged

by Fire-Loss, \$140,000.

LYLE, Minn., May 4.—Fire yesterday in less than three hours wiped out property valued at 140,000 in this place. The town was entirely without fire protection, and the flames spread so rapidly that before assistance from neighboring towns could reach here the fire had done most of its work. The Union station, belonging to the Chicago, St. Paul and Kansas City and the Illinois Central, together with the Chicago, Milwaukee and St. Paul station and two grain elevators, were consumed.

Other Losses of Property.

Among the principal losers are Lund & Lunsdhead, dealer in general merchandise, \$20,000; John Myher, general store, \$18,000; A. J. Knudson, hardware, \$22,000; the commercial hetel, Hart & Conner's saloon, Aren's meat market, McCarty Bros.' saloon, and a number of other buildings, were burned. There is strong suspicion that it was the work of an incendiary.

Only One of the Crew Saved.

Is There a Potato Famine?

There certainly has been a potato famine in the Middle States and in New England, so that New York city has been obliged to depend upon imports from Canada and from Scotland.

I was told a very curious fact about these Scotch potatoes, which, upon investigation, I found to be true. It seems that the Scotch potatoes, of which an enormous quantity have been imported here, are not Scotch at all, but are Irish. Shipments are made from Dublin and Belfast in small coasting schooners to the Clyde, and there the potatoes are taken aboard the vessels of the Anchor and State lines, and brought to this country as Scotch potatoes. They are consigned by weight and not by measure, and over 7,000 tons of them have been imported since the 1st of December.-E. J. Edwards in Philadelphia Press.

THE COUNTRY ROAD PROBLEM

Its Solution and the Wisdom of Apply

The New York Evening Post says: An interesting addition to the literature of road making is a pamphlet recently issued containing an address delivered THAYER DECLARED THE EXECUTIVE last January before the New Jersey state board of agriculture by Mr. Chauncey B. Ripley on "Improved Roads," and a collection of his views on the making of good country roads and their financial value. Mr. Ripley is a lawyer practicing in this city and living in New Jersey, who has, as a property owner, the most unbounded faith in the doctrine that money expended on roads comes back to the taxpayer who expends it. Having been instrumental in securing the passage of the New Jersey law which permits the chosen freeholders of each county to designate certain thoroughfares as "county roads," and to bond the county to raise money for their improvement, he has stirred up the people of his own county (Union) to take quick advantage of this law, and he bears gratifying testimony to the result.

Mr. Ripley defines "a good road" to be "a road available for all sorts of travel and at every season of the year." No one certainly can find fault with a road which can stand this test. The ordinary country road is the exact opposite. Indeed, it may be said of it that it is really available for no kind of travel except for a few weeks in a year. If of clay, it can be driven over with pleasure only in a dry time. If of sand, it affords a good driveway for only a few hours after a rain, before its packed surface is cut up by wheels. Nature very seldom provides a roadbed which is not a mire hole in the spring and a dust bed in the summer; and in this country only in recent years and very slowly have farmers come to recognize the fact that the cost of making "a good road," after Mr. Ripley's definition, will come back to them in any way. Accepting the adage that the condition of a country's public roads indicates its civilization, Mr. Ripley points out that in our country we have been spending our millions on the railroads which were unknown when this adage was framed, and which have had so much to do with shaping the civilization of all countries in modern time. The farmer who would look on any one as a schemer who should tell him that it would pay to mortgage his county for 5 per cent. - of its valuation in order to macadamize the wagon roads has been easily persuaded of the personal advantage to him of bonding the same county to assist in laying out a railroad through it, and may have invested a few hundred of his own hard earned dollars in the original stock of the road, the ultimate value of which is so generally mythical. The railroad, in a word, has been accepted as a necessity and an unquestioned benefactor, while the good wagon road has simply been dispensed with as a too expensive luxury.

Whoever attempts to stir up interest in good wagon roads in this countryoutside of the few Newports and Lenoxes where luxuries are demanded as suchmust prepare himself to prove that good roads will pay. The rural property owner is not generally susceptible to the purely When first appealed to to assist in road improvements his reply is, "Let the owners of fast horses make fine roads." To get him interested he must be shown by practical example that it is to his profit to be able to haul a ton where moment's reflection, that no one before he has been able to haul only half medicine could be made that as much, or that with roads that are would be the proper remedy "good" in the technical sense he will for all cases of spring affections. find his land in demand at prices which before no one would offer. For this reason the testimony presented in Mr. Ripley's pamphlet is very valuable. Here is some of it: Real estate has doubled, trebled and quadrupled in value since the construction of telford roads from Orange to Dover, N. J. One of the chronic grumblers against taxes for road improvements in Union county, when asked if he would consent to have the road restored to its old condition in order to save the taxes, replied: "Well, as I shall not be required to pay more than two dollars a year for the rest of my life, it would not be worth while." The travel has increased on these roads tenfold in a year's time. "Since the law went into effect," says Mr. Ripley, "real estate values in Union county have advanced nearly \$1,500,000, exclusive of property advances in Elizabeth of about \$700,000 more," This statement was made in October, 1890, and work under the county road act was begun only the year before. So rapidly has real estate advanced since the roads were made better that one of the largest real estate owners in the county expresses the opinion that the appreciation in future values will cover all the cost of the improvement.

Every one who has watched the progress of country road making must have noticed that road improvement is contagious. Every good piece of road is an object lesson to produce imitators. In one district near this city, where no general system of road making has been adopted, a great deal of such work has been done in the last few years by individual farmers who have been shown by two or three enterprising neighbors what a luxury and time saver a piece of sun. Man-a-lin gently quickens the good road is. In Union county, N. J., it is noted that many property owners on the cross roads, which have not been improved under the county system, are putting these roads in good condition, a brief experience having convinced them that no roads but good roads pay. Mr. Ripley's chief point in his address to the board of agriculture was the advisability of laying out, at state expense, two perfect roads across the state of New Jersey, one crossing the state, as from Newark to Camden, and one running from Cape May to the most northerly point. A good argument in favor of these roads would be the missionary work they would do in setting examples for imitation; and if New Jersey can secure an executive and a legislature whose chief objects are something besides the creation of offices and the distribution of salaries, Mr. Ripley's state road scheme

may soon be a reality.

The Ground of the Decision Being That Boyd Is Not a Citizen of the United States-A Graceful Submission, But a Probable Appeal-More Gossip About Blaine's Presidential Aspirations-Denial of the Assertions That He Would Not Accept the Nomination.

LINCOLN, Neb., May 6.-The supreme court of the state yesterday rendered a decision in the Boyd-Thayer quo warranto case, ousting Boyd and declaring Thayer the legal governor of Nebraska. The opinion recites the fact that Boyd was legally elected governor of the state, but delares him disqualified on the ground

The duties of the chief executive office of the state devolve upon the lieutenant in certain contingencies, among which are the failure of the governor-elect to qualify, or the disability of the governor. It cannot be said that there has been a failure to qualify where no person has been constitutionally elected to the office. The writ of ouster was served on Governor Boyd at 5 o'clock. He received it calmly and said: "I am ready to turn over the office now."

Too Late to File the Motion. His attorney, John D. Howe, of Omaha, who had just arrived, requested him to wait a moment, and immediately went to the supreme court-room to file a motion for a stay, but as the judgment had al-ready been entered and the writ served, it was too late. The opinion was signed by Chief Justice Cobb and Justice Norville, Justice Maxwell dissenting. It is stated that Mr. Boyd will carry the case to the supreme court of the United States. The decision on the whole may be said to be a surprise, the opinion being that in the event of the ousting of Boyd Lieutenant Governor Majors would be named as his

How to Select a Spring Medicine A Short Extract From a Lecture by Dr. S. B. Hartman.

A Pamphlet on Spring Diseases Sen

Are you thinking of getting a spring medicine? Do you feel those old symptoms which are so apt to come every spring and remind you that you need something to purify your blood or cleanse your system or tone up your digestion and appetite? Now, if there was ever a time in your life when you needed to use good judgment it is right here now. To begin with, you will see, after a It is, certainly, a matter of considerable moment to you which of the many sarsaparillas, tonics and blood purifiers you need for your particular case. If you will carefully observe the following directions you will never be disappointed in

finding a prompt relief. If your symptoms are general weakness, roaring in the head, slight faintness, brown specks moving before the eyes, twitching of the evelids, loss of appetite, sleeplessness, palpitation and shortness of breath, a worn-out, tired feeling from morning till night; if any or all of this group of symptoms describe your case, Pe-ru-na is the spring medicine you need. There is no other medicine that will so quickly and permanently relieve you. If you have had La Grippe during the past winter, and have not fully recovered your natural health and strength, Pe-ru-na is precisely what you ought to get at once. It will surely cure you in a short time.

Should your symptoms be dizziness, coated tongue, sour stomach, bloating after meals, constipation, biliousness, pain in the back, scant, high-colored urine, heavy, drowsy feelings, then the remedy that will never fail to cure you is Man-a-lin. All of the above symptoms disappear as surely, when taking Man-alin, as a white frost before a June functions of liver, bowels and kidneys, and cleanses the system of all impurities.

If, however, your symptoms are eruptions on the skin, salt rheum, pains in the joints (worse at night) chronic rheumatism, boils, scrofula blood poisons of any kind, or any other manifestation of impure blood, the proper remedy for you to get is La-cu-pi-a. There is, positively, no use wasting your time taking other blood medicines, for La-cu-pi-a can blood medicines, for La-cu-pi-a can be wasting your time taking other blood medicines, for La-cu-pi-a can be wasting your time taking other blood medicines, for La-cu-pi-a can be wasting your time taking other blood medicines, for La-cu-pi-a can b be relied on as a quick, sure and
